Gold certification for responsible
production

Our story

Built on the heritage of Quang Ngai's first textile mill, we have grown step by step into a modern, export-focused garment manufacturer.

1984

Roots

Heritage of the 2/9
Textile Mill, Quang
Ngai

1999

Founded

Dong Thanh
established on 7 April
1999 as a joint
venture

2006

Restructured

Became Dong Thanh
Garment One Member
Co., Ltd.

2010

Equitized

Became Dong Thanh
Garment JSC,
DOTHEGAMEX

2011

International

Strategic partnership
with NOA GROUP

Today

Trusted partner

300+ people serving
domestic and export
markets

Two factories

Factory 1 · Head office

32 Le Van Sy, Nghia Lo Ward, Quang Ngai City, Quang Ngai Province

Approx. 7,000 m²

Factory 2 · Tinh Phong Industrial Park

Lot C5/4, Road No. 6, Tinh Phong Industrial Park, Son Tinh, Quang Ngai Province

Approx. 10,000 m² · WRAP Gold

Services

01

OEM production

Production to your tech pack and specifications, with your approved materials.

02

CMT (cut, make, trim)

You supply fabric and trims; we cut, sew, finish and pack. FOB production is in development.

03

Export production

Export-standard production, documentation and packing, shipped on schedule.

04

Uniforms and workwear

Corporate and school uniforms and industrial workwear in volume.

1,000+ Pieces per style as standard. Smaller runs are possible for long-term partners.

Product range

Jackets and gilets · Workwear and uniforms · Seam-sealed garments · New categories in development

Technical outdoorwear

Jackets, hooded jackets, gilets and rain and work trousers are at the core of our export work.

Seam taping

In-house seam-sealing lines

Seam pressure testing

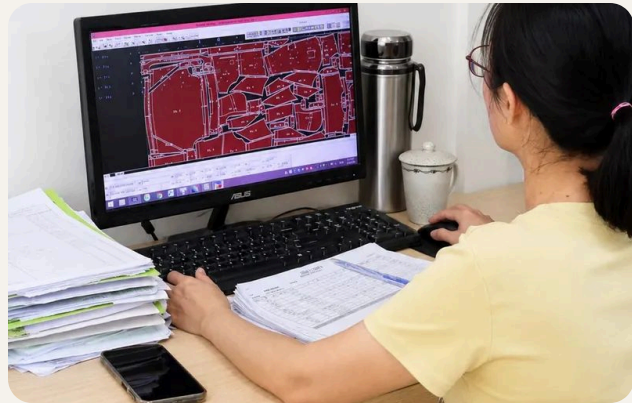

Taped seams tested on a hydrostatic tester (Nawon HTM-2225A)

Precise details

Laser cutting and programmed sewing for consistent results

Equipment

CAD pattern design and marker making

Automatic pattern plotter

Automatic fabric spreader

CNC digital flat cutter

Dual-head CO2 laser cutter

Automatic template sewing

Computer-programmed sewing

Conveyor metal detector

Snap-button attaching

Dedicated sample line

Production process

01

Consult and quote

We review your tech pack, materials and quantities, then send a clear quotation.

02

Sampling

Samples are developed and refined on our sample line until you approve them.

03

Cutting and sewing

Cutting, sewing and finishing on controlled lines that scale with your order.

04

QC, packing, delivery

Final inspection, export packing and on-time shipment to where you need it.

Quality control

Every order passes several checkpoints, so defects are caught early and finished goods match the sample you approved.

01	Incoming materials	Fabric and trims checked on arrival, before cutting
02	Inline inspection	Checks at cutting, sewing and finishing
03	Final AQL inspection	Every order inspected to AQL before packing
04	Metal detection	Finished goods pass a conveyor metal detector

Responsible production

WRAP Gold certificate · Factory 2

WRAP is one of the most widely recognised certifications for lawful, humane and ethical apparel production. We work to its 12 principles.

Compliance with laws

No child labour

Compensation and benefits

No discrimination

Freedom of association

Customs compliance

No forced labour

No harassment or abuse

Hours of work

Health and safety

Environment

Security

Our people

300+

Skilled employees across cutting, sewing, finishing and quality control.

A long-serving team is the heart of our craft, with lunch provided at the factory canteen.

Where the craft of needle and thread is kept and cherished.

Why partner with us

Your brand stays private

Designs, labels and tech packs never leave the factory.

On-time delivery

Commitments kept, order after order.

Transparent quotes

Clear pricing and open communication from the first enquiry.

Flexible quantities

Production lines that scale with your order size.

Proven since 1999

25+ years of export production and WRAP certification.

Long-term mindset

We grow with our customers over years, not seasons.

Let's talk about your next order

Send us your tech pack, sample or idea. We will advise on materials, minimum quantities and lead time, then send a clear quotation.
